Abstract: On June 17, 1980, NSF and other agencies published a proposed regulation to implement the requirements of title IX of the Education Amendments of 1972, as amended, which prohibits discrimination on the basis of an individual's sex in federally assisted educational programs. That regulation was never issued in final form. As a result of subsequent statutory amendments, it was necessary to revise the prior proposed title IX regulation and begin a new rulemaking process. The regulation was published as a common rule with other agencies that need title IX regulations.
